ALSO FOR ALL
Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of Europe, and warranted to retain its beautiful jet black color without fear at the moment when used, at 50 p.% less than the same can be bought at any other houses.

People under the impression, that they pay their 20 per. for a quarter of English Ink, can have the same per cent. more at the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and to cause more virtues than most of the Ink sold for English.

I—It is of a very rich Black at the moment when used.

II—Keeps a fine color.

III—Runs freely off the pen.

IV—A preserver of the eyes to those who have much to write at night because they will not strain their eyesight, to see what they have written.

For the reasons explained I hope that any prejudice generally entertained against Home Made articles will be laid aside, and all look to, to try the same, and I feel sure that it will be to our, and the country, in assisting Home Industry.

N. B.—A quarter left at the office will be punctually attended to and delivered free of any charge.

TUESDAY, APRIL 7, 1868.

OUR BANKING SYSTEM.

In the "Nacional" of Saturday evening we perceive a bank table or statement, showing the amount of emissions in the years 1852 and 1861, also the total sum burnt, pursuant to law, since that period.

A glance at this table will convince the most obtuse, that, however prejudicial in England and other countries, the contraction of the currency may have proved, in Buenos Ayres the withdrawal or destruction of 40 millions of our currency neither hurts our commerce, nor adds one iota to the value of our money.

The total emissions in
1-69 were 60,000,000
In year 1861 100,000,000
160,000,000
The total amount burnt
appears to be..... 39,836,000

This leaves the net amount of these emissions in circulation at present $120,164,000, which, if we take the starting at the same ratio, we may calculate will be consumed in something less than 20 years.

But our object at present, in calling attention to this subject, is not so much to draw hasty inferences, as to show up to the public the miserable state in which the currency of the country is plunged, when the destruction of so large a sum as 40 millions of paper money is but, as it were, a drop out of the ocean.

We deny that any man in Europe, Asia, Africa or America, can state, with any degree of certainty, what the total amount of paper dollars is in circulation. We may keep on burning till the day of judgment, and still we doubt if the paper money would be exhausted. Nevertheless, we shouldn't be very sorry to see the Bank free discontinued, as it would be a violation of a solemn compact; but it is the opinion of all Europeans to suppose that the present government will be in the least benefited by them.

The truth be told: if we owe the victory of Pavon to the Casa de Moneda, the misery of the provinces, the stagnation of trade, the repeated disturbances, even the very invasion of the Indians itself, is attributable to the want of a good Bank amongst us, advice to disseminate capital, and keep the people profitably employed. Proof last of this, we quote from the greatest of political economists—Adam Smith:

"The judicious operations of banking enable the trader to convert his dead stock into active and productive stock. The first forms a very valuable part of the capital of the country, which produces nothing to the country. The operation of Banking, by substituting paper in room of a great part of the gold and silver, enables the country to convert a great part of dead stock into active and productive stock—into stock which produces something to the country. The gold and silver which circulates in any country may very properly be compared to a highway, which, while it circulates and carries to market all the grass and corn of the country, does not itself produce a single pile of either. The judicious operations of banking enable the country to convert, as it were, a great part of its highways into good pastures and corn fields, and thereby increase consider ably the annual produce of its land and labour."

Such are the words of Adam Smith upon the beneficial results of banking: what the peculiar good accruing to the country, has been, from the Govt. Bank of Buenos Ayres, we should like to discover. Has it helped to convert dead stock into active stock? we do know men who possess dead stock such as land, are for 6 months in the year without sufficient money to defray their ordinary expenses, and compelled to lend their Bank account in the neighbouring usurers. The Bank, we doubt has helped some estancieros, but not assisted the great bulk of the people, possessing as it does such immense sums in paper has it promoted, enhanced and encouraged enterprizing parties in stock our frontier lands? There are, this moment, in this city, ten thousand able bodied men, who would willingly settle down on the distant Government lands, provided they were supplied with a small stock to begin with: where is the good banking system, which Adam Smith speaks of? Certainly not in Buenos Ayres, farmers, agriculturists, graziers, estancieros, what do they owe to the Casa de moneda for their indepen dence? No matter what the friends of this institution may urge to its behalf, we deny that the province of Buenos Ayres is indebted to its good banking system for anything more than for extricable paper dollar. Forty millions have been burnt, and yet ounces are higher to-day, than even before the burning commenced.

The Buenos Ayrean system of banking is detestable, and will inevitably lead to the most disastrous results if is idle to say paper is intrinsically of value, no matter what ounces may be. Are not debts, obligations, bonds, mortgages, legacies &c., much above half within the last 20 years, by immoral and scandalous fluctuations in the currency. A loan of ten thousand paper dollars made ten years ago money, when ounces were probably at 220, is only worth one half to-day.

At the opening of Congress last year, General Mitre, expressed his views regarding the dangerous state of the currency in a clear and decisive manner. Not a year has now nearly passed, and we are still in the same dilemma. On the first of next month, Congress will meet again, we hope some member will have the courage to call the matter up. The riches of the country are stagnant for the want of a good Bank: the credit of the nation is imperilled, for the want of a gold and silver Standard.

EDITOR'S TABLE

The case of the unfortunate captain of the Abbott's Reading is again before the public. Dr Pineda has sent us a letter for publication, which will be found in another column. The doctor denies that the captain was brought on shore alive; on the contrary, he asserts that, from the appearance of the corpse, he must have been dead some time.

Our prime Provincial Minister, Dr Acosta, has another ugly business on hand. The Juez de Paz of Vecino, St Senaz Valiente, has been nearly murdered. As a matter of course, the ruffian gaucho who attacked him is not apprehended. Notwithstanding we repeated promises of Sr Acosta, the Gerardo Mons murderer has never been arrested. The consequence is, that there exist at present in the camp such impunity for crime, that even the authorities themselves are in danger. We hope our colleagues will take the matter up. Public attention should be called to the sad state of affairs in the camp. Life is hardly worth an hour's purchase under the present regime. One of the best preventative measures would be to abolish all the camp pulperias and grog shops in the country parts.

Dr Alsina has the courage to take our advice.

The Belgrano mess, on Sunday last, attracted an immense deal of fashion to the Belgrano Hotel.

The "Tribuna" publishes its list of candidates for the Municipality of Buenos Ayres. Dr. Valentin Alsina, Dr M. Gainza, and Dn Norberto de la Riestra head the poll. Among merchants and business men, this gentleman is decidedly the favorite.

Dr Adolfo Alsina, we perceive, has joined the "Tribuna." We welcome him to the editorial arena, and hope he will assist us with us in our efforts to reform abuses.

The Baron Maua, it appears, was not idle during his last visit to this city. He succeeded in concluding very important contracts with the National Government—1st, open up a credit with the Government in his Bank, for 6 millions mps. in monthly payments of a million, to begin on and after 1st May 1863: 2d, taking charge of the custom houses up the river, with the exception of San Nicolas: 3rd, undertaking to introduce the London Stock Exchange, the Bonds of the National Government of October 1st 1860. It is not certain whether his Excellency will return to Bs. Ayres or not: the probability is rare, that he will go from his estate in the Banda Oriental to Montevideo, and from thence to Rio.

The political state of the Camp.

A JUEZ DE PAZ ALMOST MURDERED.

THE ASSASSIN ESCAPED.

Don Senza Valiente, late Justice of the Peace of the Vecino, prevented a wealthy gaucho from hunting ostriches in the camp, as this was a great nuisance to the neighbours whose cattle were frightened and lost the gaucho, a man of revengeful feelings found him in a small hut with a black assistant and immediately attacked him with a large knife, the Judge had a pistol at his waist but it was finally secured, and he could not unfasten it, while with his left arm he defended himself from the assassin, who drove it three times. Fortunately for Sr Senza Valiente, several dogs attacked the gaucho, who was thus forced to abandon him a few minutes, giving him time to fly towards his black servant and have his pistol taken out, at the sight of which the assassin fled.

The Judge severely wounded, weak from loss of blood and with one arm powerless, went into the hut and passed the day in the greatest sufferings: at nightfall a number of gauchos came with a flying pulperia and gambled, drank and quarrelled all night; towards daylight, one of them came into the hut and staggered alongside the Judge, asking him to have a mass said for his soul and then all remained in silence again. As soon as it was day the Judge rose from the ground and found his companion with half a dozen mortal wounds, and only two or three hours life.

The Judge is now in town, with one hand powerless, the assassin free, but this is not strange, he informs us that one of the Tenientes Alcaldes had been chosen for bravery and his bravery was proved (?) by two or three murders.

Such is the state of the camp!

LATEST FROM ROSARIO.

THE REBELLION VANISHES.

The *Diario* of the 2nd inst. has its report from Rosario. The *Diario* and *Argus* are for once true post the voices of Charity are installed in the new home opposite the *Diario* office. The information the Cordoba rifle may works is 6:60 for the 50th. The President, and Governor of Buenos ayres, Sen. Don Cordoba, are at present, but Gen. Urquiza, the large contributor, has not been invited to. Wheelwright's contract is not for 16,000 yard telegraph but for 16,000 yard which requires a large 25 or 30 miles.

The latest particulars of the revolt in Rioja show that few greatly exaggerated news. It is asserted that Sandon was besieged in that Peñaloza at took the city. Gen. Gelly despatched Col Segovia to Mendoza to the Peñaloza. Col Segovia has had an interview with the Peñaloza a mission for the latter. There is no alarm in St. Juan or Mendoza, though the Peñaloza are in the neighbourhood of the latter province is in a state of anarchy.

Gov. Posse's letter to the Minister of War resident Rosario on Wednesday evening. The invaders of the province Cordoba are about 4 or 5 thousand strong. Villa Del Rio, 30 leagues from Cordoba, under the command of Ontiveros, who found there 300 others and augmented their number to 1,200. The latter have actively taken measures, sending troops of the province into the Sierras, who were expected to and if possible, two mountaineers, have join drive the brigands into Rioja, by the mid Dolores. Gov. Posse has ordered 20th. All the Cordoba militia called out, and the Col Ejie were vigorously repulsed by the country people, but succeeded in carrying off a large booty of horses and household goods.

In San Juan the people are were making to repel any attacks. A Peñaloza was shortly expected. Don Ricardo Rodriguez Ortiz was appointed Governor of Catamarca, but was routed with the Cuyo. He says that Peñaloza has two of two killed and 4 taken prisoners, raised the standard of Liberty against the Municipality of Cordoba orders a the rebels and vagabonds under Peñaloza 30 days on all parents who neglect son conscription. To avoid evasion of doing their children to school. Mitre's Manifesto to the province of Cordoba of Carlos Meyer and Florencio Varela, and is now busy with one of Gen. Mitre. Mr Van Houle has had an audience with the two ex-ministers, who and given him orders for Europe, in consequence, and now proceeds to join all the work, allaying his gold breaker's fictitious, and the materials infancy. Nevertheless the Belgian trader is not the present circumstances.

ENTRE RIOS.

The "Litoral" brings dates up to April 2nd. The Rioja rebellion has caused no change of feeling in Entre Rios, but Carriego states that Rosario unanimously sympathises with the insurgents, and only waits for the signal from Gen: Urquiza to commence a new crusade of Liberty! Lopez Jordan arrived at Paraná on the 28th ult., and Col. Esquivel, said to be bearer of a secret mission to the Litoral.

The saladero of Alcesta Carbo. Serrano and Nicola was to take place on Easter Monday: a general invitation had been sent round, to a carne-con-cuero repast. The factory was constructed in the short period of three months, at a cost of 4 killing 600 head of cattle daily. The "Litoral" speaking of the late terrific inundations says "the earthquake of Mendoza produced the fall of Derqui, and the ruin of Tucuman heralds another state-overthrow."

MENDOZA.

The *Cuyano* to of March 17 gives its adieu to the literary world: they will shed a tear over the advocate of capital punishment for larceny. The *Constitucional* is the name of its successor. Four Bishops have been created, under the names "Salvador, Rawson, B. Ayres, and Sarmiento" which were solemnly inaugurated on the 25th ult 2nd anniversary of the earthquake. The new city is being built with streets 30 yards wide, and a fine Boulevard 40 yards wide, and a magnificent Cathedral, subsidy of the Nation. The funeral ceremonies of Sandes' aide decamp, Gomez, was distinguished himself in the Montevideo war, and fell in the Cuyo, were very grand. The orthography of the "Cuyano" is disgraceful in events last No.

The Spanish scientific company arrived in Mendoza on the 14th ult where they were well received. Sig. Moreno C.E. has contracted for the iron fire structure of the Mendoza The Chilian consul wishes his countrymen against taking up arms in the province in the present civil war. Domingo Oro gives a very flattering report of his late visit to the Tonal mines. Mails cross the Andes, monthly.

CORDOVA.

On the 25th ult. the forces of the city of Cordova marched out under Colonel Arredondo, to attack the forces of unanimously supported Powers Governor. All the forces and every house had a flag in honour of the occasion. Gen. Arredondo is considered for the campaign in Entre Rios, bringing with the contingent of Cordova. Gen. Paunero is at Rosario, and Gen. Arredondo at Gen. Juncal, the Entre Rios frontier, to invades as soldiers and pilgrims every where, the supreme authority being in the hands of Gen. Mitre and Gen. Arredondo. In the department of Mines, Major Conrie, who has formed troops about the Rio Quarto, to be ready for the field. Gen. Gelly despatched Col Segovia to Mendoza to the Peñaloza. Col Segovia has had an interview with the Peñaloza a mission for the latter. There is no alarm in St. Juan or Mendoza, though the Peñaloza are in the neighbourhood of the latter province is in a state of anarchy.

Gov. Posse's letter to the Minister of War resident Rosario on Wednesday evening. The invaders of the province Cordoba are about 4 or 5 thousand strong. Villa Del Rio, 30 leagues from Cordoba, under the command of Ontiveros, who found there 300 others and augmented their number to 1,200. The latter have actively taken measures, sending troops of the province into the Sierras, who were expected to and if possible, two mountaineers, have join drive the brigands into Rioja, by the mid Dolores. Gov. Posse has ordered 20th. All the Cordoba militia called out, and the Col Ejie were vigorously repulsed by the country people, but succeeded in carrying off a large booty of horses and household goods.

In San Juan the people are were making to repel any attacks. A Peñaloza was shortly expected. Don Ricardo Rodriguez Ortiz was appointed Governor of Catamarca, but was routed with the Cuyo. He says that Peñaloza has two of two killed and 4 taken prisoners, raised the standard of Liberty against the Municipality of Cordoba orders a the rebels and vagabonds under Peñaloza 30 days on all parents who neglect son conscription. To avoid evasion of doing their children to school. Mitre's Manifesto to the province of Cordoba of Carlos Meyer and Florencio Varela, and is now busy with one of Gen. Mitre. Mr Van Houle has had an audience with the two ex-ministers, who and given him orders for Europe, in consequence, and now proceeds to join all the work, allaying his gold breaker's fictitious, and the materials infancy. Nevertheless the Belgian trader is not the present circumstances.

THE CHILIAN MAILS.

Dates—March 13th, 4 p.m. The Archbishop of Santiago has had a successful engagement with the State of Chile, who are, therefore, about to leave the country, in the grief of the public. The crops are very bad. The Valparaiso city line of railway is all but concluded. A subscription of $9000 is in hands, to give a grand banquet to the Spanish squadron. The firm of Williamson Duncan has been prohibited from exporting guano over Mejillones guano. Mr Duncan solicits a patent for making gunpowder. In Santiago day are erecting a statue to Gen. San Martin. The guano deposits recently discovered at Mejillones are the great subject of public attention; the mines are not so active. If phones are hoping to get new mines at Copiapo. Other military forces have been sent to repress the robberies in the rural districts.

PERU.

The elections in Lima have been attended with bloodshed, the preference and not by people, and 3 persons were shot dead, and 18 badly wounded. Governor Canseco intends to dispose him. Disturbances took place in the provinces of Junin: the Prefect and Vice were defeated at the electoral in bles. The mines of Carnical fell in, burying 4 workmen under their owl.

WAR IN CENTRAL AMERICA

The Chilian mail brings an account of further military movements. It also mentions a proclamation of Carrera, Dictator of Guatemala, in which he declares war against San Salvador, alleging, as motive, that Salvador is encouraging the amalgamation of all the Central Republics." It is supposed Napoleon III is jealous of such union, and will interfere. Carrera on his part intended confederacy, by exciting war between the various petty states.

THE ROYAL MARRIAGE

On Saturday the exterior portion of the roof of the large pile of temporary building outside the western door of the Chapel Royal of St. George, which encloses the central building, and the retiring rooms for the Prince of Wales's procession, the world Princess was filled with people, and the Duke of Cambridge, the Duke of Newcastle, the Duke of Beaufort, the Duke of Marlborough, the Duke of Buccleuch, the Duke of Richmond, the Duke of Athole, the Duke of Argyll, the Duke of Abercorn, the Duke of Manchester, the Duke of Leinster, the Duke of Devonshire, the Duke of Portland, the Duke of Bedford, the Duke of Northumberland, the Duke of Sutherland, the Duke of Wellington, the Duke of Rutland, the Duke of Somerset, the Duke of Grafton, the Duke of Hamilton, the Duke of Montrose, the Duke of Roxburghe

JUDAS ISCARIOT.—This year there has been a revival of the custom equivalent to Guy Fawkes in the form of celebration. The Bonfires and effigies had become almost obsolete in our city.

OUR FRONTIERS.—The Government have sent the necessary orders to our frontier for preparations in case the Cordova affairs should require the present of greater force, which for the present does not seem likely. General Pavnero is the right man for this delicate mission; he has once before satisfied the most rigid officer in the Argentine Army [Gen. Paz] in pursuing bandits in the Sierra.

LAS CONCHAS.—Land in this locality in rising considerably, a small piece only now being sold, and that is sale for over 35,000 dollars currency.

During Holy week a large number of visitors from town resorted to the religious celebration that is held inside the church on Holy thursday, was happily unattended by any casualty.

The yield of fruit this season has been large, quinces which were selling last year at $20 to $30 per hundred now only worth $5 from excessive abundance. Several cotton plants are in full bloom despite the locusts which attack them in preference to other plants. On Saturday night Calle Lavalle was almost burnt in effigy by number of amateurs.

COLON THEATRE.

On Sunday night an immense audience filled the Theatre to see the performance of Mess. Lee Brothers and French Buffes. They were, both as usual, much applauded by the public. Mr. Lee and the Brother who have cleansed our public. The Buffes have had the great cause to make a better selection of short musical pieces as a part of our public cashet appreciate their performances from ignorance of French language. Mr. Mallon and Miss. Linn Windet of the Martinelli Ravel Company danced.

We begin call the attention of the manager of the Theatre and the Chief of Police, whose duty it is to attend to this, to the great mismanagement in the theatre in arrangements, which is unavoidable in a theatre of the rank and importance of Colon.

We bought at the ticket office with other people several seats in the pit which were covered by the flooring of boards placed for the Carnival performance, and could not sit down until after the second act in which this feat was performed at least we were informed that 6 feet in the ticket office, but we were great by surprised afterwards to find that the boards were not taken up at all and we consulmat sit during the whole night. This is gross negligence and fraud; the ticket office should not sell seats in which the owners can't sit down and in any other place we should have a right to claim our money back again.

But this is not all, a large number of people, low class of course, who had no seats went into the pit and interrupted the only two scenes left available, since the central and principal one was covered by the hated flooring, they also stood before the lower tier boxes preventing the people within from seeing the stage properly.

We had during a long part of the performance the sight of the back of a black soldier with his cap on, right before our eyes; and he would not move from his post to our great annoyance; similar complaints we have heard from people occupying other boxes.

This negligence and mismanagement reflects discredit on the director and might be easily remedied by two or three good servants. The Opera Comes was very well attended in this respect; it therefore required no great effect on the part of the manager of the theatre to do something for the convenience of the public and will eventually be found advantageous to the interests of the theatre itself.

Amber Teeth Setting

156—Calle Cuyo—156

Charles E. Krauss sets teeth by a new invention, amber, which is found perfectly superior to every other mode. It accommodates itself to the gums and palate much better than gold, which requires springs. A set of teeth may be worked in two days, serves for mastication, speaking and lasts a life time

All collection of artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have a number of instrument for extracting roots of teeth, also for stuffing the gums with gold, silver, &c., which I guarantee for a number of years.

This school has been established for several years, and is well known in this city.

No pains are spared to make the place of education attractive to the pupils, and the instruction itself profitable.

Parents are respectfully invited to visit the school, and to note carefully the monthly reports of progress and deportment.

The English, Spanish, and French languages are carefully taught by skilful instructors, and every branch of useful and ornamental education may be prosecuted in either of these languages.

French and drawing are taught after school hours. A fine afternoon class for fancy work four times a week.

Day pupils can be received at any time, and a few could be accommodated as boarders or half-boarders.
